or contact us by email: market@allallinfo.com.

www.allallinfo.com

Established in 1997, Hong Kong Alllallinfo Media Group is a publishing and media company with diversified business architecture. We have been engaged in industry media, professional exhibitions, and e-commerce for the past 26 years, which has successfully established the brand "Alllallinfo" which embodies the inclusiveness of all. With the accumulation of resources in textile and clothing industry, Alllallinfo hosted China's original Textile Printing Expo, which received great fanfare within the industry. The exhibition scope was then enlarged to the whole universe of the textile and clothing industry and was officially named "International Textile, Clothing, and Printing Industry Expo. It has been successfully held for 18 sessions until 2023.

International Textile, Clothing, and Printing Industry Expo, or ITCPE includes four sub-exhibitions: Textile Printing Industry Technology Exhibition, Intelligent Sewing and Embroidery Industry Technology Exhibition, International Printing, Dyeing and Finishing Technology Exhibition, and Clothing Fabrics and Accessories Exhibition. Exhibits categories cover the up-, mid- and downstream of the textile and clothing industry, which include but are not limited to textile printing machines, textile dyeing machines and accessories, embroidery machines, intelligent sewing machines, apparel fabrics and accessories, materials for textile printing, related software, chemicals and auxiliaries used for dyeing, etc. Exhibitors include major domestic and foreign leading enterprises such as EPSON, BROTHER, Konit Digital, and KEUNDO. ITCPE is a must-see exhibition for textile and clothing industry decision-makers and insiders to learn about the latest technologies, equipment, materials, trends, and contact and purchase cost-effective equipment in one place. It is also an effective way for enterprises to enlarge their market reach, enhance the image of their brand, seek prospective partners, and gain industry trends.
